RECTOR'S MESSAGE

I would like to welcome you to the first issue of this research newsletter, which is symbolic of the transformation of Cyprus International University (CIU) towards a knowledge-based education, research and development, along with a supporting infrastructure will play a key role in the region. I am glad to announce that CIU touches the needs of the global society, including technology, creative thinking, and leadership skills in order to cater for a sustainable future.

This first newsletter provides information on published thesis works, recent research projects at our University, conferences and new research publications. You will find details of work across a wide range of subjects and topics, from engineering, to fine-arts, to business leadership, and education. Higher education institutions have the responsibility to drive positive societal change, starting at the grass-roots level, and extending into advanced technologies to create a sustainable future. On the other hand, we need to realize that University's cornerstone lies in its undergraduate and graduate school education. The ultimate target is to promote both educational and research activities in an integrated manner. For the undergraduate programs, all Faculties and Schools provide broad range of up to date knowledge, fostering students with international common sense. Cyprus International University is showing a great importance for international accreditations in order to dynamically enhance the quality of undergraduate education.

In the academic year of 2017, Cyprus International University continued its graduate school education with the most recent information, designed to promote interactive communication between students from different cultures to expand their research interests, transcending the boundaries of their respective majors.

Our research activities were jointly initiated by the institute of graduate studies & research, research centers, and various research laboratories. Some of the projects received research grants from among others University Research Grants, the Scientific and Technological Research Council of Turkey, and the Ministry of Education and Culture. Our University's academic staff and our postgraduate students from around the world are all seeking to enhance human resources capabilities while producing innovative ideas and exerting outstanding leadership on the global stage.

This edition of the newsletter highlights how our academic staff and graduate students within the University are already working hard to secure our position internationally as a key partner of choice for research and innovation collaborations. We have the highest intention to continue developing the high quality research and educational environment in which to ensure a continual quest for truth.

Prof. Dr. Halil Nadiri
Rector

RESEARCH HIGHLIGHTS

ONGOING PROJECTS

Aphendrika: Archaeological-Architectural Cultural Heritage Project

Project Manager: Assoc. Prof. Dr. Marko Kiessel

The project titled "Aphendrika" has been conducted by a small team under the coordinator of Assoc. Prof. Dr. Marko Kiessel since 2015, and is approved by the Department of Antiquities of Northern Cyprus. It is designed to provide new knowledge about the history of ancient and medieval rural settlements on the north coast of the Karpass peninsula, i.e. about the rural cultural heritage of North Cyprus. The little explored coastal site of Aphendrika (east of Dipkarpaz) is the focus of this field research.

Multicultural and Intellectual Development Centre (MIDEC) Design Project

Project Manager: Assist. Prof. Dr. Ugo K. Elinwa

The project titled "Multicultural and Intellectual Development Centre (MIDEC) Design" is being conducted under the scope of ARCH502 Graduate Studio II and IND502 Interior Architecture Project II Master's courses by Interior Design and Architecture Master Students under the coordination of Assist. Prof. Dr. Ugo K. Elinwa. This project will encourage the multicultural and intellectual development this of the students. This project, if achieved, will serve as a Centre bringing together students from over 100 different countries to improve strong intercultural growth. It will also serve as an area for the development of ideas and intellect that will allow for the creative expressions of students. Thus the Multicultural and Intellectual Development Centre (MIDEC) is expected to consist of studios, workshops, cafés and lounges, exhibition rooms, theatres, meeting rooms, creative gardens, and research and teaching rooms, a library dedicated to the MIDEC, digital teaching spaces, gaming rooms and administrative space. As mentioned earlier, the aim of the project is to improve the multicultural blend and intellectual development of students. The Centre is expected to serve both primary and secondary purpose groups of people. The primary group covers both students and staff of CIU and the secondary group consists of the people living in North Cyprus and beyond who may want to benefit from what the facility can offer.

Anticancer and Antimicrobial Activities Associated with Endemic Allium Willeaunum and Allium Autumnale

Project Manager: Assist. Prof. Dr. Ender Volkan

Considering the wealth of understudied Allium species (including garlic and onions) on the island of Cyprus, the researchers have sought to investigate potential anticancer properties associated with these plants. The current study has focused particularly on two endemic Allium species, Allium willeaunum and Allium autumnale. The study revealed that both endemic Allium species exert significant anti-proliferative and cytotoxic effects on human breast cancer cell lines.

Characterization and the effect of mineralization of bipolar phosphorylcholine-based polymer chains on titanium surfaces with surface-initiated polymerization

Project Manager: Dr. Cem Bayram (Hacettepe University)

Researcher: Assist. Prof. Dr. Doğa Kavaz (Cyprus International University)

The use of titanium and similar alloys in the treatment of bone tissue and mass that have disappeared or lost function with increased bone mass is widely used in the world due to an aging population, dental disorders, accidents, and sports injuries. Mechanical properties such as Young's modulus, fatigue strength, and corrosion resistance are known to be the closest to the bone, but the implantation success of titanium is high, and the prospect of events occurring in the region where it comes into contact with tissue in the early period is also significant. Although design and surgical techniques in implant science seem to be the most important steps in success, a significant part of the physiological events that make up the concept of biocompatibility take place at the interface between the tissue and the implant. It is also essential to study the surface properties of the implant in detail. Wetting capability, protein adhesion, surface potential and topography are the main features of these properties. Titanium metal may produce some inflammatory response after implantation. It is important that the interaction of titanium metal-based implants with tissues is increased, and that the surface properties of titanium are examined in the above-mentioned biocompatibility concept, and that these properties can be extracted at maximum levels of tissue-to-implant compatibility for titanium metal implants. From there, various methods have been developed in which the surface properties of the titanium metal are changed and can be controlled to increase implant-tissue conformity. In this project, the aim is to reduce the inflammatory response of titanium metal implants using surface-supported atomic transfer radical polymerization, active functional groups formed on the titanium surface. The enlargement of phosphoryl choline-based brush type polymers with phosphoryl choline supplied to our blood compliance inhibition of non-specific protein adsorption and considering the positive effects on cell growth on improving implant-tissue compatibility.

TRNC PROJECTS

Development of Intelligent Lipid-based Nano therapeutics for Use in Cancer Treatment, Executive", Cyprus International University, North Cyprus Research Projects

Project Manager: Assist. Prof. Dr. Doğa Kavaz

Research Assistant: Shelly van Ellysen

According to the data of the World Health Organization (WHO), cancer diseases are the group of diseases that affect people's quality of life the most in the world and which result in many deaths. Since the discovery of cancer diseases, many different techniques

and methods have been developed in relation to their diagnosis and treatment, but an unprecedented technique and/or method that can provide the ideal solution for the diagnosis and treatment of cancer diseases has not yet been found. Nano-transport systems, which are of great interest in the treatment of cancer, are by means of the unique accumulation behavior in the tumor regions in the research into the new generation cancer diagnosis and treatment, improving the therapeutic index by increasing the efficacy of the drugs used, reducing the toxicity of the drug, to reach the therapeutic steady state level of the drug over a prolonged period of time. It also increases the solubility and stability of the drug. For these reasons, lipid-based receptor-mediated nanostructures will be prepared and characterized for use in the treatment of cancer within the scope of the proposed project. After the preparation of the nanoparticles, the surface properties of these particles will be examined. For targeting cancer cells, the nanoparticles will be activated with the model. In the course of the work, anticancer drugs will be loaded into the nanoparticles to obtain drug release profiles. Biocompatibility tests will then be performed. In the last step of the study, tumor-selectivity will be investigated by targeting nanoparticles in cancerous and healthy cells. In the last part of the study, the selected anti-cancer drug carrier will be loaded and the interaction within the cancer cells will be investigated.

The Arrangement of Open Spaces and Squares in the Walled City of Nicosia

Project Manager: Assoc. Prof. Dr. Sevinç Kurt

Research Assistant: Muhammad Kabir Sani

The project titled "The Arrangement of Open Spaces and Squares in the Walled City of Nicosia" focuses on analyzing the old city center of Nicosia, especially the open public spaces, by considering substantial historical distinctiveness and local identity to explore the effects of its cultural, ideological, social, and environmental characteristics on the people who use these spaces. Logical argumentation will be done within the sociological perspective. Correspondingly, the comparison of the changing parameters from the past to today in terms of collective urban identity will also be done. The main objective is to analyze the Nicosia walled city and to discuss different characteristics of building forms and open space patterns, using various urban theories. The research design is a mixed methods one which includes qualitative and quantitative research techniques. Case study methodology is adopted for analyzing various building forms located in the city, hence a lot of site evaluation and descriptive survey will be done in open spaces within the focused area. The ideas of Kelvin Lynch's 5 elements of the city, Rob Krier's approach of typology and morphology of urban spaces and Christopher Alexander's pattern language for the phenomenology of users' behavior in public open spaces are the main parameters of the research methodology. Concluding, advanced proposals for the use of open spaces in this historic area will be studied to provide transformations that can lead to the consciousness of the changing social structures and new occurrences of contemporary needs.

Anticancer and Antimicrobial Activities Associated with Endemic Labiatae/Lamiaceae Family Species

Project Manager: Assist. Prof. Dr. Ender Volkan

The Mountaneous regions of Northern Cyprus are rich in several Labiatae/Lamiaceae Family Species. These species, despite being understudied, carry a high potential for medical significance.

Labiatae/Lamiaceae Family Species including commonly known plants like mint and sage have been traditionally used to treat several diseases ranging from sore throats to upset stomachs. Furthermore, several studies indicate their significance in targeting tumor cells and antimicrobial properties. In order to investigate the potential the medical significance of these endemic species we have collected two species *Scutellaria sibthopi* (Benth) Hal. And *Salvia veneris* from the Besparmak mountains. Soluble and insoluble extracts of these species will be obtained and will be applied to two different human breast cancer cell lines. One is MCF7, a cell line with relatively weak metastatic potential. The other cell line is MDA-MB-231 with strong metastatic potential. This study will reveal any differential anti-motility, anti-proliferative, cytotoxic properties that may be exerted by these species. Furthermore, anti-microbial properties associated with these understudied species will be carried out on both laboratory and clinical strains of various bacteria.

TÜBİTAK PROJECTS

Breast Cancer MDA-MB-231 Cell Model: Enhancement of Metastatic Cell Behaviours by Hypoxia and Assessment of the Role of Functional Voltage-Gated Sodium Channel Expression

Project Advisor: Prof. Dr. Mustafa B.A. Djamgoz

Project Coordinator: Assist. Prof. Dr. Rüstem Önkal

Researcher: Assist. Prof. Dr. Nahir Rizaner

Worldwide, cancer is a leading cause of death, second only to cardiovascular diseases. The most frequently diagnosed forms of cancer in females and males, respectively, are breast and prostate cancers. In the great majority of cancer patients, the main cause of death is metastasis. The tumour biochemical micro-environment plays a crucial role in the development and progression of cancer. In particular, hypoxia (reduced O₂ level) accompanies growth of solid tumours, including breast cancer. Thus, hypoxia increases incidences of metastasis. Another mechanism that has been associated with metastasis is the voltage-gated sodium channel (VGSC). Both in vitro and in vivo studies have shown that VGSC expression is upregulated significantly in various carcinomas. A research study has shown that upregulation of functional VGSC expression potentiates in vitro metastatic cell behaviours (MCB), such as lateral motility, transverse migration and Matrigel invasion. Importantly, hypoxia promotes VGSC activity, especially the persistent component of the inward current (I_{NaP}). Thus, the available evidence suggests strongly that a significant portion of the effect of hypoxia on MCBs could be mediated by VGSC expression/activity, i.e. cancer progression involves the following functional triangular relationship: Hypoxia – VGSC – MCBs. This project aims to critically test this hypothesis and evaluate the possible role of cAMP as an intermediary second messenger.

CIU CONFERENCES

International Symposium

International Symposium titled "The Role of Communication in a Transforming World" co-organized by Faculty of Communication (CIU) and the Communication Research Association (ILAD) will be held on March 15th and 16th 2018 at Cyprus International University, Haspolat, Nicosia, in the TRNC.

International Conferences titled "International Conference On Perspectives for Future Education" co-organized by Faculty of Education (CIU) on May 2nd, 3rd and 4th 2018 at Acapulco Resort Hotel, Kyrenia, in the TRNC.

CIU'S MASTER & PHD GRADUATES 2016 – 2017

Thesis Lists of PhD Students who graduated from Programs of the Institute of Graduate Studies and Research having successfully completed and submitted their theses to the Institute in 2016 and 2017.

Name Surname: Demet Karakartal
PhD in Guidance and Psychological Counseling
Thesis Title: Cezaevinde yatan mahkumları suça iten nedenlerin ve psiko-sosyal destek hizmetlerinin incelenmesi (K.K.T.C. Örneği)
Supervisor: Prof. Dr. Münevver Yalçinkaya

Name Surname: Behiye Akacan
PhD in Guidance and Psychological Counseling
Thesis Title: Yapılandırılmış grupla psikolojik danışma programının öğretmen adaylarının sosyal kaygı düzeylerini azaltmadaki etkisi
Supervisor: Assist. Prof. Dr. Gürcan Seçim

Name Surname: Anthony Tokunbo Eniayejuni
PhD in International Relations
Thesis Title: Democratic consolidation in Africa: The case of Nigeria
Supervisor: Assist. Prof. Dr. Sinan Evcan

Name Surname: Benard Anayo Udeh
PhD in Environmental Science
Thesis Title: PhD Compositional and Structural changes in Phoenix Canariensis and Opuntia ficus-indica with Pretreatment: Effects on Enzymatic Hydrolysis and Second Generation Ethanol Production
Supervisor: Assoc. Prof. Dr. Emrah Erkurt

Name Surname: Yaseen Zebari
PhD in English Language
Thesis Title: Research Into The Development Of Interlanguage Pragmatic Competence Of Efl Learners In Northern Iraq
Supervisor: Prof. Dr. Mehmet Ali Yavuz

Name Surname: Kofand Anwar
PhD in Business Administration
Thesis Title: Analzing the relationship between generic strategies and competitive advantage in agricultural business in Northern Iraq
Supervisor: Prof. Dr. Ahmet Göksel

Name Surname: Mustafa Avcın
PhD in Business Administration
Thesis Title: Corporate governance- a proposed model : Embeddedness of corporate legalities on company performance in North Cyprus and Turkey
Supervisor: Prof. Dr. Hasret Benar

Name Surname: Devrim Özdal
PhD in Environmental Science
Thesis Title: Synthesis of donor-acceptor-donor perylene derivatives as potential candidates for solar cell applications
Supervisor: Assist. Prof. Dr. Nur Aydınlık Paşaoğulları

Name Surname: Ademola O. Kaka
PhD in Electrical - Electronic Engineering
Thesis Title: The design of novel miniaturised planar antennas for implementation of wireless body area network (IEEE 802,15,6)
Supervisor: Assoc. Prof. Dr. Mehmet Toyçan

Name Surname: Ferhat Muhammed Rajab
PhD in International Relations
Thesis Title: A Multi-Case Study on the Professional Development Needs of Instructors and Administrators of English Language in Universities of Northern Iraq.
Supervisor: Prof. Dr. Fatoş Silman

Thesis Lists of DBA Students who graduated from Programs of the Institute of Graduate Studies and Research having successfully completed their thesis and Submitted to the Institute in 2016 and 2017.

Name Surname: Salam Majzoub
Doctorate of Business Administration
Thesis Title: Quality of Accounting education in Lebanon : Application of International Accounting education standards
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Stefan Thüs
Doctorate of Business Administration
Thesis Title: Auswirkungen der vergütungsverordnung 2013 Sowie der EU-Deregulierungspolitik auf den Markt für Steuerberatende Berufe
Supervisor: Prof. Dr. Siegfried G. Schoppe

Name Surname: Thomas Fattler
Doctorate of Business Administration
Thesis Title: Proposal for the introduction of kaizen-Strategy in hand craft companies of the window manufacturing industry
Supervisor: Prof. Dr. Hasret Benar

Name Surname: Dirk Wiedenhöfe
Doctorate of Business Administration
Thesis Title: Patientenentscheidungen und patientenzufriedenheit Bei Freier Spitalwahl
Supervisor: Prof. Dr. Sonja Keppler

Thesis Lists of Master Students who graduated from Programs of the Institute of Graduate Studies and Research having successfully completed their thesis and Submitted to the Institute in 2016 and 2017.

Name Surname: Ibrahim Abdulsalam Shema
Master's Degree in Architecture
Thesis Title: MA - History of the urban planning development in Nigeria, 18th - 21st Century, a case study of Abuja and Zaria cities.
Supervisor: Assoc. Prof. Dr. Marko Kiessel

Name Surname: Abubakar Bello Bada
Master's Degree in Computer Engineering
Thesis Title: MSc - Performance improvement for an online shopping system
Supervisor: Assist. Prof. Dr. Öykü Akaydın

Name Surname: Galvan Tahseen Taha
Master's Degree in Architecture
Thesis Title: MA - An evaluation of modern houses in Erbil regarding the traditional courtyard houses : A case study of English Village
Supervisor: Assoc. Prof. Dr. Sevinç Kurt

Name Surname: Daniel Haruna Felix
Master's Degree in Environmental Engineering
Thesis Title: MSc - Analyzing the effect of temperature inversion on the air quality over North Cyprus and obtaining the correlations between some health effects.
Supervisor: Assist. Prof. Dr. Sedef Çakır

Name Surname: Sani Muhammad Muhammad
Master's Degree in Architecture
Thesis Title: MA - The development of Mosques in West Africa- Djenne, Futa Toro and Zaria : Case study of the Kazaure Mosque
Supervisor: Assoc. Prof. Dr. Marko Kiessel

Name Surname: Patience Bongben Fai
Master's Degree in Communication & Media Studies
Thesis Title: MA - The uniqueness of Cameroon Cinema : Similarities and differences between Anglophone and Francophone films in Cameroon Cinema
Supervisor: Assoc. Prof. Dr. Metin Çolak

Name Surname: Nawzad Hasan
Master's Degree in Accounting and Finance
Thesis Title: MSc - Macroeconomic determinates of stock price for industrial companies listed in Istanbul Stock Exchange
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Suleiman Mohammed Gidado
Master's Degree in Environmental Science
Thesis Title: MSc - Aerobic composting of Food Waste in Cyprus International University
Supervisor: Assist. Prof. Dr. İme Akanyeti

Name Surname: Adesanya M. Alabi
Master's Degree in English Language Literature
Thesis Title: MA - Postcolonial colonization in Wole Soyinka's Kongi's harvest and King Baabu: A postcolonial study
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Ahmad Yasser Sultan
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - SVM-RFE and Wrapper joint algorithm for enhancing feature selection
Supervisor: Assist. Prof. Dr. Hüseyin Öztoprak

Name Surname: Ahmadu Daiyibu Goje
Master's Degree in Computer Engineering
Thesis Title: MSc - Performance and comparative analysis of different classification algorithm in Weka
Supervisor: Assist. Prof. Dr. Hüseyin Öztoprak

Name Surname: Salam Mahmood
Master's Degree in Accounting and Finance
Thesis Title: MSc - Perceived of taxation on corporate profitability; case study from Northern of Iraq
Supervisor: Assist. Prof. Dr. Murad Abdulrahman

Name Surname: Ömür Dalkıran
Master's Degree in Law
Thesis Title: MA - K.K.T.C. Ceza yasası'nda taamüden adam öldürme ve adam öldürme suçları
Supervisor: Assoc. Prof. Dr. Fatma Doğan Karakaş

Name Surname: Jamilu Muhammad Isah
Master's Degree in Environmental Engineering
Thesis Title: MSc - Biogas production from the co-digestion of kitchen waste and cow dung by anaerobic digestion
Supervisor: Assoc. Prof. Dr. Emrah Erkurt

Name Surname: Yusuf Ünveren
Master's Degree in Graphic Design
Thesis Title: MFA - Evaluating the user interface designs of mobile applications for banks
Supervisor: Assist. Prof. Dr. Elif Songur Dağ

Name Surname: Fatma Emirhan
Master's Degree in Law
Thesis Title: MA - İşverenin iş kazası ve meslek hastalığından doğan sorumluluğunun hukuki niteliği
Supervisor: Prof. Dr. Şükran Ertürk

Name Surname: Nimlang Henry Nanlok
Master's Degree in Environmental Science
Thesis Title: MSc - Evaluating the Urban Heat Island effects on Air Quality over North Cyprus
Supervisor: Assist. Prof. Dr. Sedef Çakır

Name Surname: Hawta Faeiq
Master's Degree in Accounting and Finance
Thesis Title: MSc - The effect of Macroeconomic variables on Stock Price : Evidence of the Istanbul Stock Exchange
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Saeed Sherzad
Master's Degree in Accounting and Finance
Thesis Title: MSc - Role of Internal and External audit in Public Sector Governance : A case study of Kurdistan Regional Government
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Yusuf Ayotunde Ayodeji
Master's Degree in Business Administration
Thesis Title: MBA - The managers perception about Importance of Budgetary Control and its effects on Organization Performance : A case study from Nigeria
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Dana Hussein
Master's Degree in Accounting and Finance
Thesis Title: MSc - Effective Working Capital Management and its effects on Profitability on a Turkish Company listed on Istanbul Stock Exchange
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Ukaeje, Onyebuchi Confidence
Master's Degree in Bioengineering
Thesis Title: MSc - Effect of Heavy Metals (Cd, Cu and Cr) on Biogas Production from Poultry Waste
Supervisor: Assoc. Prof. Dr. Hatice Erkurt

Name Surname: Hamid, Nawzad Hama Salih
Master's Degree in English Language Teaching
Thesis Title: MA - Unheroic hero in Conrad's Heart of Darkness and Lord Jim
Supervisor: Prof. Dr. Nazife Aydınoglu

Name Surname: Ufoaroh, Ikenna Ken
Master's Degree in International Relations
Thesis Title: MA - A Copenhagen School Analysis of Boko Haram terrorism in Nigeria
Supervisor: Assist. Prof. Dr. Özker Kocadal

Name Surname: Hussein Alhadi Mohamed Wadi
Master's Degree in English Language Teaching
Thesis Title: MA - Sources of foreign language anxiety among EFL students teachers in Libya
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Riyadh Abdulsalam Salim Saed
Master's Degree in English Language Teaching
Thesis Title: MA - Vocabulary learning strategies of English language learners in Libya
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Tony Court-Tawiah
Master's Degree in Environmental Sciences
Thesis Title: MSc - Determination of scaling, corrosion tendencies and the effect of calcium ion concentration of a reverse osmosis plant using langelier saturation index
Supervisor: Assist. Prof. Dr. Nur Aydınlik Paşaoğulları

Name Surname: Çiçek Azizoğlu
Master's Degree in Pre-School Education
Thesis Title: MA - Kuzey Kıbrıs Türk Cumhuriyeti'nde okul öncesi 60-72 aylık dönemde eğitim kurumlarında okunan hikaye kitaplarının değerler eğitimi açısından incelenmesi
Supervisor: Assist. Prof. Dr. Elif Bozcan

Name Surname: Rafa Boakshem
Master's Degree in Civil Engineering
Thesis Title: MSc - A computer application for mix design of normal strength concrete based on fuller's equation technique
Supervisor: Assist. Prof. Dr. Salaheddin Sabri

Name Surname: Alaa Bashir Elgadi
Master's Degree in English Language Literature
Thesis Title: MA - Influence of John Keats's life and medical experience on his poetry: an extrinsic and intrinsic analysis
Supervisor: Prof. Dr. Nazife Aydınoglu

Name Surname: Hunar Jabar ohammed
Master's Degree in Accounting and Finance
Thesis Title: MSc. - Impact of taxation on profitability of banks in Jordan
Supervisor: Assist. Prof. Dr. Husam Rjoub

Name Surname: Emir Ali Gürler
Master's Degree in Law
Thesis Title: MA - KKTC Hukuku'nda tıbbi müdahalenin hukuka uygunluğu
Supervisor: Assist. Prof. Dr. Şölen Külahçı

Name Surname: Amina Lawal
Master's Degree in Management Information System
Thesis Title: MSc - E-Learning Cloud System: A proposed solution to the adoption of e-learning system in Katsina state tertiary institutions
Supervisor: Assist. Prof. Dr. Mary Agoyi

Name Surname: Sule Habibu
Master's Degree in Bioengineering
Thesis Title: MSc - Anaerobic Co-Digestion for the Production of Biogas using Cheese Whey and Animal Dung (Cow, Poultry and Sheep) and determining the effect of Parameters
Supervisor: Assist. Prof. Dr Ertan Akün

Name Surname: Henry Ugochukwu Ukwu
Master's Degree in Electric-Electronic
Thesis Title: MSc - Optimization of unit commitment using improved dynamic programming method
Supervisor: Assist. Prof. Dr. Reza Sirjani

Name Surname: Zeliş Ömer
Master's Degree in English Language Teaching
Thesis Title: MA - A psychoanalytic reading of Vladimir Nabokov's speak, memory and pale fire
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Nazifi Abdullahi Abdullahi
Master's Degree in Bioengineering
Thesis Title: MSc - Synthesis and characterization of Xanthan base hydrogels for model drug loading and control released studies
Supervisor: Assist. Prof. Dr. Doğa Kavaz

Name Surname: Abdullahi Umar Ibrahim
Master's Degree in Bioengineering
Thesis Title: MSc - Preservation of Tiger Nut using Chemical and Natural Antimicrobial Agents
Supervisor: Assoc. Prof. Dr. Hatice Erkurt

Name Surname: Huzaifa Umar
Bioengineering Master Program
Thesis Title: MSc - Anti-Metastatic activity of Albizia Lebbeck Stem bark extract Against Breast Cancer Cell
Supervisor: Assist. Prof. Dr. Nahit Rizaner

Name Surname: Lucky Oziegbe Ighalo
Business Administration
Thesis Title: MA - Customer loyalty in Telecom Sector in Nigeria
Supervisor: Assist. Prof. Dr. Zanete Garanti

Name Surname: Adetoyese Oluwakorede Owolabi,
Master's Degree in Architecture
Thesis Title: MA - The assessment of Nigeria public open spaces towards accessibility of disables
Supervisor: Assist. Prof. Dr. Payam Mahasti

Name Surname: Murat Yılmaz
Master's Degree in Business Administration
Thesis Title: MBA - Customer satisfaction in casino business: (Case study of Grand Pasha Hotel in North Cyprus)
Supervisor: Assist. Prof. Dr. Nothando Moyo

Name Surname: Elham Niknia
Master's Degree in Computer Engineering
Thesis Title: MSc - Energy efficient operation for a reconfigurable WDM/TDM pon
Supervisor: Assoc. Prof. Dr. Mehmet Toycan

Name Surname: Odafe Prince Efegebere
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - Analysis of local binary patterns in fused feature sets on independent facial expression recognition
Supervisor: Assist. Prof. Dr. Huseyin Öztoprak

Name Surname: Ali Yıldız
Master's Degree in Law
Thesis Title: MA - Türkiye ve Kuzey Kıbrıs Türk Cumhuriyeti ceza hukukunda suçtan kaynaklanan malvarlığı değerlerinin aklanması suçu
Supervisor: Assoc. Prof. Dr. Fatma Doğan Karakaş

Name Surname: Özge Özüyağlı
Master's Degree in Turkish Language and Literature
Thesis Title: MA - Selim İleri'nin İstanbul kitaplığında bildirme kiplerinin işlevleri ve görev değişimleri
Supervisor: Assoc. Prof. Dr. Gürkan Gümüşatam

Name Surname: Cemaliye Öğütveren
Business Administration Master Program
Thesis Title: MBA - KKTC Bankalarında kurumsal yönetim ilkeleri ve uluslararası finansal raporlama standartlarına bağlı finansal tabloların hazırlanmasındaki algı düzeyini belirleme çalışması
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Şakir Mutlu Baykal
International Relations Master Program
Thesis Title: MA - Türk-Amerikan ilişkilerinde kırılma noktası: 1 Mart tezkeresi, reddi ve nedenleri
Supervisor: Assist. Prof. Dr. Turan Cavlan

Name Surname: Paul Aisagbonbuomwan
Master's Degree in Bioengineering
Thesis Title: MSc - Optimization condition for the Production of Bioethanol from Potato Waste using Saccharomyces Cerevisiae
Supervisor: Assoc. Prof. Dr. Hatice Erkurt

Name Surname: Hassan Yusuf Sulaiman
Master's Degree in Environmental Science
Thesis Title: MSc - PM10 concentration in Northern Cyprus: The contribution of background sources and desert dust intrusion
Supervisor: Assist. Prof. Dr. Sedef Çakır

Name Surname: Samuel Kunle Adeyefa
Master's Degree in Management Information System
Thesis Title: MSc - Evaluation of awareness of computer ethics among the University Students
Supervisor: Assist. Prof. Dr. Mary Agoyi

Name Surname: Khaleel Khaleel
Master's Degree in Accounting and Finance
Thesis Title: MSc - Determinant of Audits Fees : Evidence from Turkey
Supervisor: Assoc. Prof. Dr. Mehmet Ağa

Name Surname: Karwan Hussein
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - MC-CDMA System channel equalization
Supervisor: Assist. Prof. Dr. Ziya Dereboylu

Name Surname: Ali Çiftçi
Master's Degree in Turkish Language and Literature
Thesis Title: MA - Ali Nesim'in öykülerinde yapı ve izlek
Supervisor: Prof. Dr. Mihrican Aylanç

Name Surname: Tuğba Güler
Master's Degree in Turkish Language and Literature
Thesis Title: MA - Mustafa İzzet Adiloğlu'nun şiir dünyası
Supervisor: Prof. Dr. Mihrican Aylanç

Name Surname: Kunseh Billa Hiedi
Master's Degree in International Relations
Thesis Title: MA - African Union and conflict resolution in Africa
Supervisor: Assist. Prof. Dr. Sertaç Sonan

Name Surname: Umamatu Bashari Abubakar
Master's Degree in Energy Systems Engineering
Thesis Title: MSc - Application of absorption refrigeration systems in Northern part of Nigeria
Supervisor: Assoc. Prof. Dr. Mustafa Dağbaşı

Name Surname: Musa Şan
Master's Degree in International Relations
Thesis Title: MA - AB-Türkiye ilişkilerinde kürt sorunu
Supervisor: Assist. Prof. Dr. Turan Cavlan

Name Surname: Zeki Erdem
Master's Degree in International Relations
Thesis Title: MA - Türkiye'nin Afrika politikası ve Sudan ile ilişkileri
Supervisor: Assist. Prof. Dr. Sinan Nusret Evcan

Name Surname: Turgut Karahüseyin
Master's Degree in Energy System Engineering
Thesis Title: MA - The effects of soiling on solar photovoltaic systems in the capital of Cyprus
Supervisor: Prof. Dr. Serkan Abbasoglu

Name Surname: Umaru Musa
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - Enhancing directivity in a microstrip patch antenna using metamaterial
Supervisor: Assoc. Prof. Dr. Mehmet Kuşaf

Name Surname: Kudzai Artwell Chard
Master's Degree in International Relations
Thesis Title: MA - An analysis on the impact of international economic sanctions on Zimbabwe
Supervisor: Assist. Prof. Dr. Sertaç Sonan

Name Surname: Derrick Chiosaabuofu Agbidi
Master's Degree in Energy System Engineering
Thesis Title: MA - Performance analysis and comparison of photovoltaic, solar water heating and photovoltaic thermal systems
Supervisor: Prof. Dr. Serkan Abbasoğlu

Name Surname: Percy Ebuka Eugene
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - Facial emotion detection and recognition for independent faces using uniform binary pattern subtypes
Supervisor: Assist. Prof. Dr. Hüseyin Öztoprak

Name Surname: Raymond Chukwuma Aligbe
MSc - Information Systems Engineering Master Program
Thesis Title: Securing mobile messaging on android
Supervisor: Assist. Prof. Dr. Mary Agoyi

Name Surname: Muhammed Abubakar
Master's Degree in International Relations
Thesis Title: MA - Boko Haram insurgency in Nigeria: The international dimensions
Supervisor: Assist. Prof. Dr. Sertaç Sonan

Name Surname: Dara Abdullah Rahman
Master's Degree in English Language Literature
Thesis Title: MA - A comparative study of attitudes towards war:
Wilfred Owen and Vera Britain's selected war poems
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Saifullahi Auwalu Alkali
Master's Degree in Energy Systems Engineering
Thesis Title: MSc - Design of hybrid solar air conditioning system
Supervisor: Assoc. Prof. Dr. Mustafa Dağbaşı

Name Surname: Maryam Idris Musa
Master's Degree in Bioengineering
Thesis Title: MSc - Nanoencapsulation of essential oil of *Cyperus articulatus* with enhanced antimicrobial activity
Supervisor: Assist. Prof. Dr. Doğa Kavaz

Name Surname: Günay Potinci
Master's Degree in English Language Teaching
Thesis Title: MA - The relationship between EFL learners' motivation and their achievements
Supervisor: Prof. Dr. Mehmet Ali Yavuz

Name Surname: Olusola Olorunfemi Bamisile
Master's Degree in Energy Systems Engineering
Thesis Title: MSc - Evaluation of Energy Literacy among Nigerian Senior Secondary School students
Supervisor: Prof. Dr. Serkan Abbasoğlu

Name Surname: Rebaz Khaleel Khorsheed Palani
Master's Degree in Management Information Systems
Thesis Title: MSc - Using social media for efficient marketing
Supervisor: Assist. Prof. Dr. Müesser Nat

Name Surname: Chiehiura Osuorji Angel
Master's Degree in Business Administration
Thesis Title: MBA - A critical appraisal of recruitment and selection in the context of public service reforms in Nigeria
Supervisor: Prof. Dr. Hikmet Seçim

Name Surname: Çağın Sanıvar
Master's Degree in Management Information Systems
Thesis Title: MSc - Performance analysis of Macroscopic Pathloss models in LTE Urban Area Network
Supervisor: Assoc. Prof. Dr. Mehmet Toyçan

Name Surname: Hana Hamad Ameen
Master's Degree in English Language Literature
Thesis Title: MA - A Postcolonial reading of Derek Walcott's poetry
Supervisor: Prof. Dr. Nazife Aydınoğlu

Name Surname: Nwaneri Onyekachi Mark
Master's Degree in International Relations
Thesis Title: MA - United Nations peacekeeping operation in Africa: Case study of Somalia
Supervisor: Assist. Prof. Dr. Sinan Evcan

Name Surname: Hanasa Abdalla
Master's Degree in English Language Teaching
Thesis Title: MA - Transitivity analysis of Charles Dickens's great expectations
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Abygyel Chileme Chima
Master's Degree in International Relations
Thesis Title: MA - Assessing regional integration : The case of ecowas
Supervisor: Dr. Anthony Eniayejuni

Name Surname: Mahamoud Abdillahi Rirache
Master's Degree in Civil Engineering
Thesis Title: MSc - Effect of salinity on the hydro-mechanical characteristics of compacted fine grained soils
Supervisor: Assoc. Prof. Dr. Huriye Bilsel

Name Surname: Efe Ighohiowhunu
Master's Degree in Energy System Engineering
Thesis Title: MSc - Design of an absorption refrigeration system for a hotel building with solar energy
Supervisor: Assoc. Prof. Dr. Mustafa Dağbaşı

Name Surname: Olayinka John Olaleye
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - Multispectral palm vein recognition using undecimated dual-tree complex wavelet transform
Supervisor: Assist. Prof. Dr. Burcin Ozmen

Name Surname: Dafevwakpo, Justin Otome
Master's Degree in International Relations
Thesis Title: MA - Terrorism; A threat to global peace and security: A case study of Boko Haram
Supervisor: Assist. Prof. Dr. Özker Kocadal

Name Surname: Abdulkarim Musbah Ali Said
Master's Degree in English Language Teaching
Thesis Title: MA - An evaluation of the 7th&8th grade EFL curriculum and course materials in terms of the common European framework of reference for languages in Libya
Supervisor: Assist. Prof. Dr. Behbood Mohammedzadeh

Name Surname: Grace Bukola Ademoyegun
Master's Degree in Management Information Systems
Thesis Title: MSc - Customer behaviour prediction using data mining techniques (Bank telemarketing)
Supervisor: Assist. Prof. Dr. Huseyin Oztoprak

Name Surname: Mohamed Baherniel
Master's Degree in Engineering Management
Thesis Title: MSc - The impact of the environment on occupational health and safety in the petroleum industry (A case study of Brega Petroleum Marketing Company)
Supervisor: Assist. Prof. Dr. Ayşe Tansu Tunçbilek

Name Surname: Ziad Hassan El-Mourad
Master's Degree in Electrical - Electronic Engineering
Thesis Title: MSc - Modeling and simulation of Northern Cyprus Transmission Network to compute the power losses
Supervisor: Assist. Prof. Dr. Sirjani Reza

Name Surname: Jeeman Ahmed Khorsheed
Master's Degree in Computer Engineering
Thesis Title: MSc - Facial expression invariant face recognition using local binary patterns
Supervisor: Assist. Prof. Dr. Kamil Yurtkan

Name Surname: Charles Orhue Idele
Master's Degree in Management Information Systems
Thesis Title: MSc - Implementation of A* Search algorithm on map of Northern Cyprus
Supervisor: Assist. Prof. Dr. Öykü Akaydin

Name Surname: Arzu Atan
Master's Degree in Business Administration
Thesis Title: MBA - Şehir markası yaratma süreci: Lefkoşa örneği
Supervisor: Assist. Prof. Dr. Hale Özdoğaç

Name Surname: Ayten Özkırac Kırsal
Master's Degree in Teaching for Mental Disabilities
Thesis Title: MSc - Gelişimsel yetersizliği sahip öğrencisi olan öğretmenlerin karşılaştıkları problem davranışlar ve nedenlerine ilişkin görüşlerin incelenmesi
Supervisor: Assoc. Prof. Dr. Dilek Erbaş

Name Surname: Hoshang Dalshad Ganjo
Master's Degree in Environmental Sciences
Thesis Title: MSc - Health and Safety Management application in North Iraq petroleum industry: A case study to designate presence of gasses and heavy metals at and around the refinery
