I would like to thank you for your interest on collaboration opportunity between Neuro-Psychiatrisches Zentrum Riem (NPZR) and Cyprus International University.

NPZR offers a wide range of high-quality services in the fields of psychiatry, psychosomatic disorders, psychotherapy and neurology. NPZR is specialized in the area of transcultural psychotherapy, and majority of staff members have an immigration background. Applied culture-specific therapies-consist of mother tongue therapies for Turkish patients. Furthermore, we conduct research studies on the psychiatric problems of immigrants. Therefore, NPZR offers several activities for researchers and ERASMUS students such as:

- Participate in group and individual psychotherapy sessions under the supervision of an attending or chief resident.
- Help to organize and prepare the weekly changing subjects and exercises of the group therapies and prepare the materials.
- Gather knowledge on examinations such as Electroencephalography or the use of repetitive transcranial magnetic resonance therapy (rTMS).
- Take part in research done at the institution. We gather information about our patients' diseases and the treatment process and try to publish outstanding findings.
- Learn proper data collection and literature review and afterwards the analysis of data.
- Apply psychometry testing to patients such as Beck's Depression Inventory, SCL-90-R, MMSE, Dementia detection tests such as DemTect, personality disorder tests such as SKID, etc)
- Possibility to discuss cases with the supervisors in the weekly group supervisions or in individual sessions

NPZR would like to become partner and work with Cyprus International University to establish an academic, scientific, and cultural collaboration and to develop of joint academic exchange programs in the field of mutual interest.
